## QUIET DAY ON 'CHANGE

SUGAR TRUST AND ST. PAUL SHARES LED IN THE DEALINGS.

Net Declines Were Coupled with Another Advance in Silver-Local Markets Were More Active.

At New York, yesterday, money on call was firm at 467 per cent.; last loan 4; closed at 4 per cent.

Sterling exchange was steady, with actual business in bankers' bills at \$4.83%@4.84 for demand and \$4.80% @4.81 for sixty days; posted rates, \$4.81@4.83 and \$4.84@4.85; com-

mercial bills, \$4.791/2. Bar silver, 651/sc; silver certificates, 65/6 6514c. At London bar silver closed at 301/6d per ounce.

Total sales of stocks were 99,323 shares. including the following: American Tobacco, 4,400; Burlington & Quincy, 5,100; Manhattan Consolidated, 6,900; Reading, 5,400; St. Paul, 18,400; silver certificates, \$22,000.

Speculation in stocks on New York \*\*Change yesterday was perfunctory in the extreme, and with one or two unimportant exceptions the fluctuations in prices were narrow. The only two stocks that reached even comparative activity were Sugar and St. Paul. Sugar was depressed early nearly a point on the circulation of reports of a probable strong combination of interests opposed to the American Sugar Refining Company and the inroads that are being made by the foreign products on its domestic trade. The first mentioned story elicited emphatic denials in usually well-informed in the company and the inroads that are being made by the foreign products on its domestic trade. The first mentioned story elicited emphatic denials in usually well-informed sugar circles, on which a rally ensued of 1½ per cent., to 107%. The full recovery was not held, but in the boards the impression prevailed that the traders had not succeeded in shaking out an amount of long manipulation. There was, as heretofore, a dearth of news regarding the basis of the upward movement, but the old rumors of a probable termination of the fight between the company and its competitors were again pressed into service. There was little or no news having a general bearing on the market aside from the arrival of about \$1,625,-000 in gold and reported additional engage-ments for import aggregating \$3,300,000. The existing comparative monetary stringency was injustrated by several bank sus-pensions in the interior. The monotony of market was to an extent refleved, howthe market was to an extent relieved, how-ever, by the announcement of the appoint-ment of receivers for the Bay State Gas Company. There was a notable lack of ex-citement over this development, as the street considered it to be more fully sig-nificant of politics than finance. The stock fell 3½ per cent, to 7, on the news. The general market displayed a better tone in the afternoon session, and prices stiffened all around to a fractional extent on the gold engagements and strength of the gold engagements and strength an easier wheat market. Toward the close an easier engagements and strength of the

tone obtained, with Consolidated Gas conspicuous for a decline of 3 per cent. The closing was steady at slight net gains.

Dealings in bonds were light, but firmness was generally displayed. Louisville & New Albany consol fives rose 4 per cent., to 79. The sales were \$559,000. Government bonds were strong and frac-tionally higher on purchases of \$36,000. Sil-ver certificates developed strength and rose

1/2, to 651/2, on a moderate revived foreign inquiry. The sales were \$22,000. The following table, prepared by L. W. Louis, Room 13, Board of Trade, shows the range of Open- High- Low- Clos-

In the country money is more plentiful as a result of the better prices for grain and stock.

Farmers are selling and much of the money they receive goes to the retail merchant and then to the wholesaler. Were it not tax-paying time the money situation would be the easiest in many months. Sugars have advanced twice this week and other staple groceries are very firm in tone. The dry goods houses are having a very respectant and shoe and hat merchants. Advance in Prices Expected This Winter-Weekly Reports of Bradstreet and Dun & Co.

NEW YORK, Oct. 16 .- R. G. Dun & Co.'s weekly review of trade to-morrow will say: recovery. There was some selling for foreign account. May opened about 4c higher, against 31.2 in September, while imports have decreased 24 per cent., against 35.2 in September. Continued ship-ments of gold for a september. Continued ship-ments of gold for a september with a september and selling for foreign account. May opened about 4c higher from the second about 4c higher for foreign account. May opened about 4c higher from and in good demand; fresh to 28% where it closed.

Oats were active, firm and higher, with a good business transacted. The firm-ness of wheat was principally responsible for the better principally responsible and the foreign account. May opened about 4c higher prints, 20c; fancy Pennsylvania prints, 2 ments of gold from Europe, not including st.000,000 from Australia, now amounts to 20%c, then rallied to 20%c, closing steady at \$59,250,000 since the movement began, of which \$52,250,000 has already arrived, and have not been arrested by measures taken by the great European banks. The heavy movement of grain is the cornerstone, Aftbreadstuffs in September there have been shipped the past week from Atlantic ports | uary laru .02720 13.8212c. alone 2,134,774 bushels, flour included, and 4,203,845 bushels in two weeks of October, against 3,510,271 bushels last year. A more important fact is that all available grain freights have been engaged for months ahead here and on the Pacific coast. The Minister of Agriculture in India stated in council on Thursday that distress was expected in a large part of India as the result of drought, but importations of wheat from California would help to prevent actual famine. A high official of Russia now in this country confirms accounts of shortness in the Russian yield. Thus the estimates that Europe will fall 100,000,000 bushols short of last year in supply of wheat els short of last year in supply of wheat is strongly supported, and while department estimates of yield in this country are not credited, there is every reason to expect a remarkable foreign demand. Western receipts fall a little below last year's and or two weeks have been 14,235,016 bushels, against 15,084,483 last year. Wheat has advanced the course for the weeks and corn? vanced 41/2 cents for the week and corn 2

Confidence as to the future makes trouble | f. in some industries because speculation in materials raises prices so that demand for finished products is checked. Boot and shoe makers get very narrow orders at old prices or at an advance less than 1 per cent, for the week and less than 6 per cent, from the lowest point. Similiar difficulties threaten in the iron manufacture, culties threaten in the iron manufacture, for pig is higher, Bessemer at \$11.50 and gray forge at \$9.75 at Pittsburg, while plates, angles and beams are weaker and various combinations held prices only by hearing outside competitors to take the market as far as they can. Steel bars are largely sold at 1c, while 1.2c is demanded for iron. All the nails that outsiders can produce are sold at less than the association asks. Billets are still sold for less than the pool price and its shipments in September aggregated only 36,000 tons, mainly of sheet and tin-plate bars and the demand for rails is growing small. Wool is stronger with continued speculative buying and sales at Eastern markets have been 14.546,390 pounds for two weeks, against 21.209,700 pounds last year, and 13,-702.800 in 1892 but consigned wool has been for the week is fifteen, against seven stopping, much of the work done is in anticipation of a better demand than now exists. The cotton manufacture has also started more spindles, but the demand for geods scarcely increases and print cloths sell at 2.56 cents. The manufacture of minor metals also drags, though domestic demand for copper is moderate at 10.75 cents for lake. Lead is a shade weaker at 2.75c and tin makers are underselling foreign 15 cents to 20 cents per box. Failures for the week have been 328 in

the United States, against 263 last year, and forty in Canada, against forty-six last Bradstreet's Review of Trade. NEW YORK, Oct. 16.-Bradstreet's report general trade has not increased materially. new conditions are favorable to an early improvement. Many interior merchants prefer to wait until after election before placing orders, but others are willing to order subject to cancellation should the cessful. Sentiment at larger business circles regards the success of the campaign for sound money as assured. In some instances merchants are discounting that view of the situation by placing orders. Features of the business week are the continued advance in price and strength of wheat and the maintenance of a large volume of wheat exports, notably in India and Australia. While wool is no higher, holders have sold enough to render them indifstances merchants are discounting that ferent to immediate business and are holding stocks for full figures. While new orders for iron and steel products are not being placed freely, they would be if makers would accept current quotations for 1897 delivery. Southern pig is 25c highfor 1897 delivery. Southern pig is 25c higher, and, notwithstanding the growing export trade in iron and steel, has been checked by higher ocean freight rates and cut prices by German steel makers, it is anticipated that within three weeks the domestic demand will meet expectations. On the Pacific coast trade has been stimulated by the advance in the price of wheat and continued activity in exports of lumber and other staples, notably to Japan. Australia, South Africa and India. Trade is reviving in the San Joaquin valley, California, since the completion of a competing railroad. Exports of wheat (flour included as wheat) from both coasts of the United States and from Montreal this week amount to 4,156,817 bushels, against 4,050,000 bushels last week. bushels, against 4,050,000 bushels last week, 2.409,000 bushels in the week one year ago, 3.122,000 bushels two years ago, 2.709,000 oushels three years ago, and compared with

3,270,000 bushels in the corresponding week of 1892. The total number of business failures re-ported throughout the United States this week is 279, twelve fewer than last week, ten less than in second week of October. 1895, but twenty-six more than in the corresponding week of 1894. As compared with the second week of October, 1893, this week's total shows a decline of sixty-one. There are thirty business failures reported from the Canadian Dominion this week,

HIGHER CABLES AND INCREASED FOREIGN DEMAND NOTED.

Other Markets in Sympathy with the Leader, Save Provisions, Where Losses Were Scored.

CHICAGO, Oct. 16.-Wheat continued an upward march to-day, and at the close the Seven Transfers, with a Total Consid- December option had scored an advance of 1%c per bushel. Foreign news was again responsible for the jump. Corn and oats office of Marion county, Indiana, for the twenty- were not so enthusiastic, but scored a 14c four hours ending at 5 p. m., Oct. 16, 1896, as advance at that. Provisions were distinctly weak, but the decline was small. A rise of over 1c was chronicled in the

> and one did not have much difficulty in finding an explanation. The opening quotation from Liverpool was at 2d per cental advance for spot wheat and 1d per cental for futures. A private message from Liverpool, that the milling demand was "checked by the advance," had no effect, and, in fact, was not borne out by the reports from the seaboard. There is no disputing the fact that the foreign situation and the foreign strength are setting the pace. The Indian crop situation is growing more serious and increasing the nervous apprehension in Great Britain, while the Australian outlook continues discouraging, and even in Argentina there is increasing danger of crop destruction. Shortly after the opening free selling set in, mostly by the contingent of scalpers who were satisfied with the profit in the opening advance and proceeded to take it. As soon as this was over, however, and that was not long, prices advanced again. The opening price for December was at 71½0713c, compared with yesterday's closing figures of 703c0 70½c. After touching 71½c for an instant, the selling referred to broke the price and the selling referred to broke the price and of the continued dullness in manufacturing of the continued dullness in manufacturing of the continued dullness in manufacturing of the continued dullness. a gradual decline to 71%c took place. Then the natural buoyancy of the market exerted itself, and by noon October had recovered to 72c. Another built factor was the Northwest receipts. Minneapolis and Duluth reported receipts of 983 cars, against 1,046 a week ago and 1,227 last year. The San Francisco market was quoted to pounds of domestic and 1,674,000 pounds of San Francisco market was quoted 4c per cental higher early in the day, and reports from there said that two more cargoes had been worked for India. New York wired that the wheat offered to the other side had been accepted. About 12:30 o'clock New York reported sales for export offered of four boatloads (32,000 bushels), chiefly Duluth wheat. The market was rather ner-vous during the closing hour, but was steadily supported, and December closed firm at 721/sc. Corn was fairly active and averaged

higher. There was a good deal of realizing during the early part of the session, and for the better price, yet some independence was the result of good buying. May opened

Provisions alone of all the markets showed distinct weakness all day. The opening was at a slight advance, in sympathy with a firm hog market. Under a poor demand and liberal offerings by packer an increase of \$5,923,675 in exports of breadstuffs in September there have been uary pork closed 5c lower, at \$7.77½; Jan-

Flurry at San Francisco. SAN FRANCISCO, Oct. 16,-To-day's session of the San Francisco Produce Exchange was the liveliest seen in many a day. The greatest excitement prevailed and the bidding was exceedingly spirited. May and December wheat each closed 6% points higher than yesterday, reaching the highest figures quoted for three years. The majority of the call board men were "long" on wheat and enthusiastically confident of continued advances in prices. At the close of the noon session December wheat was quoted at \$1.41% and May at \$1.44%. At the afternoon session there was a drop, the market closing December, \$1.40; May, \$1.42%.
